Cathedral High School
Boston, Massachusetts
1972

In Dedication

We make this dedication to Sister Lumena O'Sullivan, our Principal. Sister Lumena came to Cathedral High School four years ago, bringing with her a wealth of experience both as a teacher and an administrator. Committed to progressive education and Christian community, she strove to bring about meaningful change in the structure and spirit of the school. Sister has worked energetically to make education more relevant to the students, and has served as a catalyst to students and faculty for responsible participation in the life of Cathedral. The force of her ideas will have a lasting impact, for she has shaped the school to serve the community and improve the quality of urban life.

With great appreciation and respect, we the 586 students of Cathedral High School, dedicate our 1972 yearbook to Sister Lumena O'Sullivan.

SR. LUMENA O'SULLIVAN, C.S.J.

Dear Graduates of 1972:

I write to you with mixed emotions. The first is one of joy, in that you have completed a major step in your lives successfully. You now take a great step forward in your growth and your responsibilities. You are now in a position to contribute even more to the quality of life of mankind, and for this we rejoice and share your pride and happiness.

The second emotion is one of sadness that we will be to a great extent parting ways. This is a necessary part of life and it is challenging, but there is nonetheless a surge of sorrow when we have to break familiar patterns - but it is worth it.

I have many things I would like to say to you. First - think often of the essential teaching of the Christian church that is a foundation of this school Love - really love God, your neighbor and yourself (not selfishly) but because you are already loved by God and you are worthy. Stay alive until the death of your death and even then you will be reborn.

Do not build walls or fences but bridges between men.

Do not be afraid to make a mistake. Is is in an honest mistake that much can be learned. "The greatest mistake is never to make a mistake." It means you haven't tried, haven't risked.

In life be positive not negative - see the good side - look for success not failure.

Have faith in God, your fellow man and in yourself.

Understand that mystery is a part of life. Accept that there is more to life than meets the eye. Believe - for only faith makes sense out of life.

With love and prayers for your
success and happiness,

Father Boyle
